🎯 ACHIEVEMENTS

- **Winner of the Smart India Hackathon conducted by AICTE and GOVT of India.**
- **Intern @ AICTE Govt of India**
- Successfully completed over 200+ advanced projects in machine learning, deep learning, and computer vision, reflecting our extensive practical experience in these cutting-edge domains.
- Demonstrated my strong coding skills by solving more than 170 Leet Code problems, showcasing my ability to tackle complex algorithmic challenges.

📁 PROJECTS

AI Based Web Portal for Ranking Institutes, AICTE 🔗

- Developed a project for AISHE (All India Survey for Higher Education) mandated by AICTE (All India Council for Technical Education).
- Project recommends the best college based on students' domain of interest and ranks institutes on various parameters.
- This project **Winner of the Smart India Hackathon**, highlighting the project's effectiveness and innovation.

JEE-Rank-and-College-Predictor 🔗

- Developed a web portal that predicts the rank of students and recommends colleges based on their percentile scores.
- Students can input their percentile, and the system accurately predicts their rank.
- The project was built using a combination of HTML, CSS, JavaScript, Python, Flask, and Bootstrap.
